"The Experienced Design Builder"

- Ferrovial's experience includes some of the largest, most complex transportation projects in the United States.
- In the last eight years, Ferrovial has been awarded various major design-build contracts in North America totaling \$9.3 billion.
- Recently, Ferrovial's commitment to DBE utilization resulted in over \$400 million for the two North Texas projects which included significant participation with DBE design and professional firms

Ferrovial US 2013 ENR Rankings- Top 10 for Transportation(#6) and Heavy/Civil (#7) Contractor

4-"C's" Initiative for Inclusion

Comprehensive Communications:

Timely and effective communications to the diverse business and local project community about potential opportunities for employment and contracting.

Community Connections: Build and foster relationships with diverse firms and communities.

Continued Commitment: Company-wide commitment to utilize diverse, small and local firms on our projects as well as hiring a diverse workforce.

Consistent Results: Extensive contract & equal employment compliance programs which have consistently resulted in substantial utilization and goal achievement.
